Dennis Klocek explores the essence of biodynamic agriculture, in particular the nature of inner development needed to utilize such methods effectively. Based on numerous lectures presented to serious biodynamic gardeners, farmers, and winemakers, the author presents his views within a structure of Goethean observation, alchemical language, and the classic four elements, all based on the work of Rudolf Steiner and other pioneers in this field, as well as his own many years of interest in biodynamic methods, both conceptual and practical. This is not a book of recipes and how-to techniques, but a guidebook to the inner means of working with the elemental nature of the earth, showing ways to read in nature what is needed. Includes more than 150 photos and illustrations. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
