

## Astronomical Discoveries You Can Make, Too!: Replicating the Work of the Great Observers

By Robert K. Buchheim

Springer International Publishing AG. Paperback. Book Condition: new. BRAND NEW, Astronomical Discoveries You Can Make, Too!: Replicating the Work of the Great Observers, Robert K. Buchheim, You too can follow in the steps of the great astronomers such as Hipparchus, Galileo, Kepler and Hubble, who all contributed so much to our modern understanding of the cosmos. This book gives the student or amateur astronomer the following tools to replicate some of these seminal observations from their own homes: With your own eyes: Use your own observations and measurements to discover and confirm the phenomena of the seasons, the analemma and the equation of time, the logic behind celestial coordinates, and even the precession of the equinoxes. With a consumer-grade digital camera: Record the changing brightness of an eclipsing binary star and show that a pulsating star changes color as it brightens and dims. Add an inexpensive diffraction grating to your camera and see the variety of spectral features in the stars, and demonstrate that the Sun's spectrum is similar to one particular type of stellar spectrum. With a backyard telescope: Add a CCD imager and you can measure the scale of the Solar System and the distance to a nearby...

## Reviews

The best book i actually go through. It can be full of wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Prof. Greg Herzog

The publication is not difficult in study preferable to fully grasp. It really is rally intriguing through looking at period of time. I found out this pdf from my dad and i advised this ebook to find out.
