

Bridge and culvert hydraulic hydrology (3rd edition National Transportation Civil Vocational planning materials)

Filesize: 9.04 MB

Reviews

A whole new e book with an all new point of view. It is one of the most incredible book i actually have go through. I am easily could possibly get a enjoyment of reading through a written book.

(Nathanael Treutel)

BRIDGE AND CULVERT HYDRAULIC HYDROLOGY (3RD EDITION NATIONAL TRANSPORTATION CIVIL VOCATIONAL PLANNING MATERIALS)

DOWNLOAD

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 188 Publisher: People's traffic Pub. Date :2009-12-01 Version 3. This book is a general higher education. Eleventh Five-Year national planning materials. the nation's transportation construction Vocational planning materials. The book is thirteen chapters. including water. statics. dynamics of water-based. open channel flow. open channel non-uniform flow. basic knowledge of rivers. hydrographic surveys. hydrological-based. medium and large bridge design flow projections. the projected design flow of small bridges and culverts. bridge selection and calculation of medium and large aperture bridge. bridge scour. small bridges and culverts. and engineering aperture calculation case. together with the review thinking questions. exercises. This book can be used as road and bridge engineering universities and colleges of higher vocational technical and other professional materials. also available in the highway bridge design. construction. engineering and supervisory work of engineering and technical officers. Contents: Section I Chapter static hydrostatic water pressure and distribution of the calculated total hydrostatic pressure Section Review questions Thinking Exercises Chapter Overview Section II basic hydrodynamic constant stream of constant flow continuity equation III consider the energy equation review questions Chapter Exercises section open channel flow hydraulic characteristics of open channel flow and open channel hydraulic calculation of basic formula II Review Exercises Chapter thinking questions open channel flow section of non-uniform cross-section and critical depth than can be Section II non-uniform flow equations and a qualitative analysis of the surface curve III curve calculation and drawing surface water or water jump Section Review Exercises Chapter thinking questions the basics of river runoff Section II River Classification Section sediment thinking questions review Chapter VI Section hydrographic survey cross-section measurements and hydrological river hydrographic surveys Section II Review thought questions flow calculation...
