Not illustrated. 1894 Excerpt: .When it was first known its flowers were single, with a yellow disk and dull scarlet ray petals. It belongs to the same order of plants as the sun flowers and chrysanthemums. Cultivation has changed it in many respects, not only as to its time of flowering, but to the height of its growth, and even the shape of its seeds. The tubers were at one time used as an article of food in France, but they are sharp and harsh in taste, and of little value as an esculent. The dahlia was named after Dr. Dahl, who introduced it into England in 1804, by presenting it to Lady Holland, who was its first successful English cultivator. Its course foliage, gaudy flowers, and want of perfume, seems to have prevented its becoming a favorite with our poets.--M. A. B. GLAD AUTUMN DAYS. The magic voice of...
