

Dyslexia, Dysgraphia, OWL LD, and Dyscalculia. Second edition: Lessons from Science and Teaching, Second Edition

By Virginia W. Berninger, Beverly J. Wolf. Foreword by Vincent Alfonso, R. Malatesha Joshi, and Elaine Silliman

Paul H. Brookes Publishing Co., 2015. Softcover. Book Condition: New. How can teachers provide effective instruction for students with learning disabilities while meeting the needs of all students? The second edition of this accessible text gives K-12 educators research-based answers, straight from two highly respected voices in the field. The first teacher training text to cover all four learning disabilities that require differentiated instruction? dysgraphia, dyslexia, dyscalculia, and oral and written language learning disability (OWL LD)? this book prepares educators to deliver explicit and engaging instruction customized to the needs of their students. Critical insights from diverse fields blend with lessons learned from actual teaching experience, making this an ideal preservice text and a great in-service professional development tool. The book teachers need to . . . strengthen instruction with current research findings from many fields?including genetics, neuroscience, linguistics, and education . help all students (including students with specific learning disabilities) develop oral and written language skills and proficiency with math concepts and problem solving . use differentiated instruction to organize their classrooms, routines, and lesson plans . uncover both the why and the how of differentiated instruction, so they can adapt their teaching techniques as needed . meet Common Core State Standards while...

Reviews

Absolutely essential read through ebook. Better than never, though i am quite late in start reading this one. I am just delighted to inform you that this is actually the finest ebook i actually have read through during my own existence and might be he greatest publication for actually.
