Createspace, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.Shining bright, guiding light. A collection of twelve flash and short stories that would best be described as magical realism, with a light dose of science fiction, some humor - and just a smidgen of unimaginable terrors. If it was a movie it would be rated PG13 - some foul language. The dead, alive is a vignette that deals with such an anomaly. Tetropolis is the absolute future city that only has space for some. Blue moon is not just a song. The race pits out world against one where monsters are real. Which will win? Paradise is the world s oldest story, re-imagined. The n.e.w.s. technique is a topographic method, a way to completely describe a place of interest. Could it work for humans as well? Bait , where mundane events mirror soul capture. Gloomy Sunday is the day a man in a future society decides to take his own life. A writer s pause signals the beginning of the end of creativity. Drowned , where a group of friends get a chance to re-shape their lives. The pile up is the story of a painting and everyone affected by it. A lecture on the rocks delivers an atmospheric depiction of stone-cold facts.
