Basically no phrases to clarify. It really is written in straightforward phrases rather than hard to understand. You will not sense monotony at any moment of your own time (that's what catalogues are for concerning if you ask me).

Brand New Book ***** Print on Demand *****.In presenting the narrative of some of the doings of the Salvation Army during the world s great conflict for liberty, I am but answering the insistent call of a most generous and appreciative public. When moved to activity by the apparent need, there was never a thought that our humble services would awaken the widespread admiration that has developed. In fact, we did not expect anything further than appreciative recognition from those immediately benefited, and the knowledge that our people have proved so useful is an abundant compensation for all toil and sacrifice, for service is our watchword, and there is no reward equal to that of doing the most good to the most people in the most need. When our National Armies were being gathered for overseas work, the likelihood of a great need was self-evident, and the most logical and most natural thing for the Salvation Army to do was to hold itself in readiness for action. That we were straitened in our circumstances is well understood, more so by us than by anybody else. The story as told in these pages is necessarily incomplete, for the obvious reason that the work is yet in progress. We entered France ahead of our Expeditionary Forces, and it is my purpose to continue my people s ministries until the last of our troops return. At the present moment the number of our workers overseas equals that of any day yet experienced.
