

Designing Embedded Systems: Handbook + Lamp Project (Paperback)

Filesize: 2.08 MB

Reviews

It is one of the most popular publications. We have read through and that I am sure that I will likely to study again once more later on. I am just delighted to tell you that this is actually the finest publication we have read through in my individual existence and might be the best pdf for actually.

DESIGNING EMBEDDED SYSTEMS: HANDBOOK + LAMP PROJECT (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book ***** Print on Demand *****.This book reviews the Software Development and Engineering Principles involved in the Design of Embedded Computer Systems. A LAMP (Linux Apache MySQL PHP) design for a Web-Based Home Control / Security Application is also provided (full source code included). This book is applicable to both the seasoned Embedded Software Engineer and to the Hobbyist who just wants to learn a little bit about writing code. Information gathered by the author's 30+ years in the field is discussed as he presents what works and what does not work with regard to embedded software engineering. This will help engineers but will also be an aid in assisting those who are tasked with managing the design of an embedded application. But what of the novice? What of the person wanting to gain some understanding in the field of embedded software engineering? Do they need a Computer Science or Electrical Engineering degree before they can even begin to learn how to program an embedded system? All too many books discuss such programming from an advanced level. Well, this book is not like that at all. The idea is to get anyone that is interested in embedded programming to be up and running in a short period of time. The language of choice today is C or C++. For an easy entrance into this world of programming the C language was chosen for the code examples presented within this book. But what programming application should be tackled? An embedded application is a program that continually executes on a computer system and as it does so, it interacts with its environment. A home control lighting system would be the ideal application and by...
