RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 42 pages. Original publisher: Portland, OR : U. S. Dept. of Agriculture, Forest Service, Pacific Northwest Research Station, 2004 OCLC Number: (OCoLC)55117267 Subject: Sustainable forestry -- Washington (State). Excerpt: . . . rating for the indicator degree of urbanness. Summing the Shannon-Weiner index value for each variable and dividing by six resulted in an overall lifestyle diversity rating for each county. Economic diversity - Economic diversity is the second component of socioeconomic resiliency and reflects diversity of employment opportunities. Employment by stan-dard industrial classification (SIC) code for 2001 for each Washington county was downloaded from the Labor Market and Economic Analysis Branch of Washingtons Department of Employment Security Web site. Data missing owing to disclosure issues were interpolated from the 1997 County Business Patterns CD-ROM (USDC Bureau of the Census 1999). The year 1997 was selected to ensure data consisten-cy, as subsequent releases use the newer North American industry classification (NAIC) code system. These county employment figures were then benchmarked against the state of Washington as a whole by using the coefficient of regional specialization index: $R E E_{ij} j i E -E (2) i$ where E employment in county i in industry j , $ij E$ total employment in county i , $i E$ total employment in industry j in all counties, and $j E$ total employment in all industries across all counties. This index is commonly used in geography to determine if a region (county here) is more or less specialized than a benchmark (Washington state here). Values close to zero indicate the county has about the same proportion of people employed in each industry as the state, whereas values around 1 indicate that employment...
